EXPERIENCE

Gen Digital / Lead AI Product Designer Sep 2024 – Pres · Mountain View, CA

- Setting the creative vision and leading design for Norton Neo, an AI-native browser redefining the web experience. Delivering seamless, cohesive interfaces across desktop and mobile. Reporting directly to Gen's C-Suite.
- Spearheaded branding and product strategy, fusing cutting-edge AI with intuitive design principles to drive user adoption.
- Patent grants for classifying entry-bar input to route between AI agent sessions and traditional actions.

Shader Inc. / Founding Design Lead Sep 2023 – Sep 2024 · San Francisco, CA

- Drove the end-to-end user experience for an AI-powered, real-time camera app democratizing AR effect creation via natural-language prompts.
- Iteratively shipped cross-platform flows for mobile and desktop — accelerating product launches and elevating user engagement, directly contributing to acquisition of 50k+ users.

Microsoft (Blizzard) / UX Designer Aug 2022 – Sep 2023 · Irvine, CA

- Designed and shipped major features for products reaching 350M+ global players across mobile, browser, and desktop platforms.
- Championed design system evolution, cross-functional collaboration, and pitched innovative concepts that influenced executive direction and org culture.

Snap Inc. / AR Lens Creator Sep 2021 – Jun 2022 · Remote

- Collaborated with interdisciplinary research teams at Snap and Brown University to invent next-gen AR experiences for Snap Spectacles — the results engaged 1M+ users.
- Rapidly prototyped and tested novel cross-device AR interactions, influencing Snap's product roadmap.

NASA Ames / 3D Prototyper Aug 2020 – Dec 2020 · Mountain View, CA

- Designed VR/AR and UI/UX solutions for various NASA projects, including a VR application allowing users to explore Mars with real MSL rover data.
- Developed a data engine and optimized algorithms for querying and visualizing millions of data points from NASA databases.

NASA Glenn / Mixed Reality Intern Jun 2020 – Aug 2020 · Cleveland, OH

- Worked on VR/AR + UI/UX solutions in various NASA projects at Glenn Research Center's Graphics and Visualization lab.
- Collaborated with R&D experts to design applications by use of natural user interfaces and remote collaborative experiences.
- Defined key design and implementation decisions.

EDUCATION

Brown University

M.S. HCI · 4.0 GPA

B.A. Computer Science · 4.0 GPA

B.A. Psychology · 4.0 GPA

Harvard University

Visualization coursework

Rhode Island School of Design

VR and 3D coursework

SKILLS

Design

Design systems · UI & UX design · Figma · Prototyping · 3D modeling · Animation · Icon design · Accessible design · User flows · Midjourney · Krea

Technical

Claude · Blender · Adobe · Unity · HTML/CSS · JavaScript · Python · C#

ACTIVITIES

ALEBOI / Artist

My independent freelance art project — experimental audiovisual work in collaboration with cross-disciplinary creative teams.

MakerSpace / Co-creator

Launched a community at Blizzard to catalyze innovation, hackathons, and open collaboration.

Brown Taekwondo / Instructor

Developed and taught curriculum for diverse age groups; mentored competitors.
